"THE VOICE OF THE STUDENTS - - BY THE STUDENTS"

Vol. 16, No. 7

PURDUE UNIVERSITY CALUMET CAMPUS, HAMMOND, INDIANA

Friday, May 10, 1968

Congress Holds Elections May 13, 14

Ken Goodwin for President

My name is Kenneth Goodwin. I am a junior majoring in History with a dual minor of English and Political Science. In the few years that I have been at Purdue Cal I have seen this school and the Student Congress grow. I have seen, and in the last year had the pleasure to participate in, this growth. The Student Congress has started to emerge as the only force in the school that can actively represent the students of Purdue Cal. The only way the Congress can continue to represent the students is by having an active, informed, and knowledgeable leadership. Above all this leadership must be concerned, concerned mainly for the betterment of Purdue Cal and Purdue Cal students.

I know that this type of concerned leadership is not impossible. On the contrary, it is very probable. Any student who really cares about his school can make this type of leadership a reality. He or she can do this by being active, thinking active, and voting active. The Active Party proposes to provide this leadership by being ACTIVE. Active in the sense of continuing and expanding the present lines of communication that the present Congress has initiated, utilizing student facilities, activities, and opinion.

Purdue Calumet is entering upon a critical time in its history. The school is undergoing fantastic growth both physically and mentally. Physically by way of the building of new buildings and mentally by way of rapid increase in student population. Purdue Cal is on the threshold of a new and important role as a leader in the community. In order for the school to be effective in this position an enlightened administration is needed. An enlightened Student Congress manned by leaders of that same quality must be found in order to effectively work with the administration. I, as a member of the ACTIVE party, plan to provide this leadership. I believe

that the success of an endeavor, while we all certainly strive for that illusive quality, is not of primary importance. What is important is that the effort has been made. The ACTIVE party pledges to always make that **dedicated effort**.

This election is an unusual one in probably one main respect. Which is; that very few candidates or rather students have expressed an interest in serving YOU the students of Purdue Cal as Student Council officers. So therefore I, as YOUR candidate for President of the Purdue University Calumet Campus, ask you to make election day May 14, 1968 as a day of mandation. I want you to show the ACTIVE party and you yourselves the ACTIVE students that Purdue Cal is ready to move forward. Forward with an Active purpose, and Active state of mind, an Active party for an Active student body.

Kenneth Goodwin
candidate for the position of
President of the Purdue
University Calumet Campus
Student Congress.

Jesse Warren Nominated V.P.

I came to Purdue Cal with the idea of using it as a stepping stone to Purdue Laf. Purdue Cal didn't seem to have much to offer in the way of real college life. But I did want to make my stay here worthwhile. The major difference between high school and the university is two-fold. First, the university student has a greater amount of freedom. Second, the university student is more active. These two points work together to make university life successful. A student must accept this extra portion of freedom and use it wisely in being active for the school as well as for himself. Any student who isn't active, that wastes his free time just sitting around, any student who is apathetic will never be a true university student. They come here in the morning, leave in the evening, and not have a second thought about Purdue Cal. To these students Purdue Cal will always be their glorified high school. Be active and be a real university student.

I found that Student Congress is the focal point of this activeness. I've also seen the potential for future growth. I've also seen that student congress can play a large part in the growth and betterment of the active student's life. I want to be a part of this growth. I've spent a very productive year working with the Student Congress. I feel that I can accomplish even more next year as a member of the Cabi-

Jesse Warren

net. Personally I will do all I can to keep the ICC working effectively. I want to see the ICC become stronger and support more activities involving a larger club backing. With the increased activity fee the ICC and the Congress can provide bigger and better activities for the active student.

As for myself, I am a second semester freshman majoring in Math. I have a 5.84 index, and plan to complete my degree here at Purdue Cal in the next three years. I want to continue working with the Student Congress, for the Student Body. Purdue Cal is a challenge and an opportunity. This campus can be and will be a real college campus for any interested and active student of the future.

The other members of the ACTIVE Party, Ken Goodwin, Colleen Curie, Martha Eastwood, and Gary Austin, feel the same way I do. We call ourselves ACTIVE because we feel that this is the answer to the failings here at Purdue Cal. You students here must help the Student Congress in finding the problems and solving them. We want to put the student in Student Congress. We want Purdue Cal to be the ACTIVE campus, but it can only be that if you, the students are ACTIVE. Therefore, we, Ken, Colleen, Martha, Gary, and I urge you to

THINK ACTIVE . . . BE
ACTIVE . . . VOTE ACTIVE

Wayne D'Mura Nominated V.P.

If I, J. Wayne D'Mura, am elected Vice President of Student Congress, I will strive for school unity among students as well as faculty members. This school unity will be attained by exploring areas such as:

1) Social Life—The so-called social life at Purdue Cal is limited to congregating in the food lounge. Therefore, I will try to find other ways for students to spend their free time between

Wayne D'Mura

classes. Since the proposed Student Union will not be seen until 1971, I propose a temporary Student Union located in the main building comprised of a card room, billiard room, and a student dance area.

Presently, dances that are sponsored by Purdue organizations do not last as long as they should. Purdue administrative policy now limits activities to an 11:30 p.m. curfew. I will strive to change this administrative policy.

2) Student-Faculty Relations—I will strive to bring more unity to Purdue Calumet through more movies, lectures, and open discussions that will be of interest to the main student body and faculty, rather than just to limited groups.

3) Student-Student Relations—Due to the fact that this is a commuter campus, students have little relationship with fellow students other than their immediate classmates. I will try to bring us more together by offering more appealing student activities.

4) Academic Viewpoint—The students are being subjected to classes that are being taught with outmoded texts and materials. I will work hard in order to improve these existing conditions.

5) Public and community relationships—I will try to find more ways of stimulating public interest in Purdue Cal Campus by sponsoring activities primarily aimed at the community.

6) Parking Facilities—At the present time there is a general student bitterness towards parking fees. The student body has not really been told the whole story behind allocation of these funds. As Vice President I will attempt to find where these funds are going.

In conclusion I feel that I am the suitable choice for the position as Vice President of Student Congress. I am a recipient of a National Scholarship from General Motors and have an accumulative index of 5.03. I

Gary Austin

Gary Austin Runs For Treasurer

Candidate: Gary Austin
Office: Treasurer

Before listing my qualifications for the office of treasurer, let me state that I am not running for just this office. I wish to be elected to a cabinet position, the treasurer's position most of all, because I feel that I can best accomplish my goals for this school as a cabinet member. These goals are similar to those of my running mates in the Active Party, Ken Goodwin, Jesse Warren, Martha Eastwood, and Colleen Curie. Specifically these goals are:

- Increased participation by non-members of Student Congress in Student Congress. One of the Active Party's main concerns is putting the student in the Student Congress. This goal will be accomplished by encouraging students to join the various committees which operate under the Congress.
- More detailed financial reports from the business office concerning student funds. As treasurer, I will also assist club treasurers in dealing with the administration.
- A more unified Inter-Club Council for better coordination of social activities. It is the hope of the Active Party that a week-end of events sponsored by all clubs can be planned for next semester.
- Full use of the lines of communication between the Congress and both the ad-

(Continued on page 2)

Ken Goodwin

also feel that I am suited for this position because I have been at Purdue Cal longer than my opponent and have a better working knowledge of the students' wants and needs.

Caesar, Are We Tools?

What is the purpose of the Student Affairs Committee? We have been under the impression that this was an advisory committee to the Student Affairs Officer.

The Student Affairs Officer has a veto power over anything and everything the committee advises. Very simply one more authoritarian satellite within the University has come to light. It has gotten to the point of being next to ridiculous. The committee isn't told about ADMINISTRATIVE DECISIONS, let alone consulted.

Earlier this semester the Student Affairs Officer saw fit to expend over \$1200 of Student Activities Fees from the reserve fund. No one on the committee or the Student Congress was told about the money leaving the reserve fund. The Student Congress President discovered these transactions while checking the Student Accounts Control Book in the Business Office.

Although a large portion of this money is to be returned next semester, the situation remains the same—fools are being made of the faculty and students as well as the members of the committee.

Under the present system all this is quite legal and above board. But why the apparent veil of secrecy recently? It appears that this committee was set up for the sole purpose of appeasing the faculty and students.

Another function of this committee WAS to review new club constitutions. This semester three or four new clubs have been recognized by the University and the committee hasn't seen the constitution of one.

How big of a joke must this committee become before the faculty wakes up?

About the only thing that this committee has done recently was to set up a three man subcommittee to establish guide lines for next year's constitution for the Student Affairs Committee. WHAT'S THE SENSE? The Student Affairs Committee has absolutely no power or authority to act on anything anyway!

It is too far beyond our scope for us to think that an autocratic individual would relinquish any of his power or authority because of a set of guide lines set down by something less than a puppet committee.

We feel that it is about time that the instructors at Purdue Calumet pulled their pants up from around their ankles and became a faculty.

Up With People

by Ben Jory

The trip-hammer pace at which we live, the frantic and wild flying and driving, going and coming, up and down—why? where to? who knows? who cares? What am I doing with myself? Who am I? Who are *you*? Who are *we*? Do we have the time to find out? Is the university the place and the time?

Must we stop the spinning world and get off, or must we stay on and begin to *see* each other? What is there to see? A mystery, another "I," a secret who, strangely, need not disturb me, but who can give me peace because we were all made for each other. The person, a unique center of freedom and love, a *someone* greater than any *something*, is the beginning of that mystery of becoming a *people*. I am meant to create a people, and for that I need another "I," I need a "you," and still another "you," and another, and yet another, until we become "we, the people."

This is what Purdue Calumet ought to become—a university graduating persons who are integral parts of a people, who refuse to treat the human person as simply the object of mental or computerized calculations, as an academic subject like mathematics which one attempts to comprehend, no matter how complicated the problems which it presents.

Purdue Cal should never become just courses of study and committees, rooms and lounges, offices and laboratories. Purdue must be above all a *people*, a place where the first of all values is the value of the human person. No other value in the university—truth, freedom, knowledge, integrity—will make any sense unless the university values the dignity of the people who give it existence.

Dear Editor,

I would like to thank the **Boil-maker** for publishing the letter concerning the Candies incident. Mr. Candians, upon being approached by the Human Relations Board, has decided to change his position concerning the serving of Negroes in his restaurant.

I would also like to thank the students of Purdue Cal for their boycott of the same restaurant. This act showed the community that Purdue was interested in community affairs and also brought the white and negro students of Purdue into greater harmony.

James H. Austgen

Dear Editor,

In reference to your letter in the **Boilermaker** April 29; I as a student at Purdue Cal Campus would like to pose a question: Why aren't the people who do the most complaining working to improve the situation?

When Debbie Mickey, former editor of the **Boilermaker**, resigned there was an anguished call for help for staff on the paper, no one showed up except the people who do most of the work in this school, i.e. Miss Gransinger. Unless you would like to take a difficult and time consuming job, I suggest that the matter be dropped.

James H. Austgen

Contenders For Cabinet Offices Announce Goals, Qualifications

AUSTIN—con't. from p. 1

ministration and student body.

As for my personal background, I am a mathematics major with a 5.81 grad. index. This year I was active in the Gables, German Club, of which I was vice-president, and **Boilermaker**. As a freshman class senator, I was parliamentarian of Congress and also served on the Activities, Publicity Constitution, and Instructor Evaluation committees. I introduced into this year's Student Congress the three present constitutional amendments and also am chairman of the Bookstore Relations Committee which I originally proposed.

In conclusion, I'm not going to promise you that all the problems of Purdue Cal will be solved next year. But I can assure you that I and my constituents will do everything in our power to solve as many as possible.

Martha Eastwood

MARTHA EASTWOOD For Recording Sec.

In the fall I started mechanically attending classes at Purdue Cal in Nursing Technology doing 4.17 work. I wanted to see some student activities. Towards the end of the semester I got involved in Purdue Cal. I was asked to fill a senatorial position, and I accepted it. I found myself being an active student, trying to give fellow students something to be active about. I served on Homecoming, publicity, convention, charity, and High School Night committees, and also served on the Traffic Appeals Board. At the beginning of the spring semester I was elected by the Congress to the cabinet position of Recording Secretary. I'd like you to select me as Recording Secretary to enable me to use my past experiences and express my future aims for our university.

1. We want to put non-congress members on Student Congress committees to give you a voice in the activities sponsored by the Congress. We don't want Congress to be an activity, but an instrument of the students. Students are not apathetic unless given a reason to be. We don't want you to have a reason to be.
2. We will coordinate the Inter Club Council to facilitate more social activities.
3. We will try to involve student representatives and faculty representatives on joint committees to make use of student and faculty opinion.
4. We will increase the availability of financial statements from the business of-

Susan Clark

SUSAN CLARK For Corresponding Sec.

If I am elected, I would be a representative of the student body first and a cabinet member second. Being a student myself, I am interested in the opinions of all my fellow students and have had an opportunity to become acquainted with a wide variety of student interests at Purdue Cal. The opportunity for total student involvement is afforded me by my participation in Kappa Pi Delta, Purdue Calumet Theatre Department, Ciceronians (forensics club), Purdue Glee Club, and as a freshman senator in the Student Congress.

Through my outside work, I have had a great deal of experience with the channels of communication and can use tact to make my way through these channels. This is an asset to the office of Corresponding Secretary, because the Corresponding Secretary is responsible for communication with students, faculty, and administration in which the ideas of Student Congress must be presented clearly and tactfully. Since I feel that I have the above mentioned qualifications, I also feel that I can live up to **ALL** the duties and responsibilities of a representative of the student body and of the office of Corresponding Secretary.

There are seven areas of concern for the cabinet members. They are as follows:

1. Social life.
2. Academic Viewpoints.
3. Student-faculty, administration relations.
4. Student-students relations.
5. Public and community relations.
6. Physical facilities within the building.
7. Parking facilities.

(Continued on page 3)

office so you will be aware of where your money is being spent.

5. We will continue to use and expand the present lines of communication between the administration, faculty, and students.

A cabinet needs to work together. The members of the **ACTIVE PARTY** want to work together. We don't want you to vote just to see how many votes we can obtain, we want your vote to voice your opinions on the **STUDENT BILL OF RIGHTS AND FREEDOM** and our **PARKING DIFFICULTIES**.

So:

THINK ACTIVE . . . BE ACTIVE . . . VOTE ACTIVE

Colleen Currie

COLLEEN CURRIE For Corresponding Sec.

When I first came to Purdue Calumet (and got used to the grind of classes and homework) I was apathetic. I called Purdue Calumet a "glorified high school" and other such uncomplimentary names before I finally realized that Purdue Cal looked bad to me because I was uninvolved.

This fall when I decided to stay at Purdue Cal and finish my college career here, I also decided to do something about my attitude by getting involved. I talked to active students (whom I once thought were clique-ish) and interested faculty. I helped organize Le Cercle Francais (French Club) and was elected its first president. Then I became a sophomore senator and found I was finally where the action is.

"So what?" you may say. Well, I'll tell you **SO WHAT!** I want to be given the chance to help you realize that Purdue Cal is a school to be proud of and that there are things happening here. At every Congress meeting we bemoan the student apathy. We vow to talk to you, the students, and find out what you want. We held Gripe Sessions. We place a Gripe Box in the Food Lounge. We print articles in the **Boilermaker**. After many attempts we are saddened and even disgusted by the gross apathy apparent. But we do not give up. At the following Congress meeting we exchange ideas on how to arouse student interest in **STUDENT** government and the vicious circle begins again.

Ken Goodwin, Jesse Warren, Martha Eastwood, and Gary Austin share my sentiments on this subject and we are running united as the Active Party. We are not making campaign promises to be broken. We are telling you, the voters, what we, The Active Party, are going to do next year.

1. **WE WILL** put non-Congress members on Student Congress committees to give you a greater voice in activities sponsored by the Student Congress.
2. **WE WILL** increase the financial statements from the business office so that you will be aware of where your money is going.
3. **WE WILL** co-ordinate the Inter-Club Council (ICC) for social activities.
4. **WE WILL** continue and expand the present lines of communication between the administration, faculty, and students.

(Continued on page 3)

CLARK—con't from p. 3

Social life: concerning social life, I have divided it into two sections. The first section being major social activities, the second section being minor social activities. There should be a major activity every month such as Freshman orientation in September, a Fall Dance in October, a big name concert, in conjunction with ARC, in November, a Christmas or New Year's Dance, Homecoming in December, the Dinner-Dance in May, and in April, three days of activities including a road rally, penny carnival, and inter-club competition (relays, races, games, etc.), in which points would be given, and the club or organization with the most points would win a prize. Minor activities include regular Friday night dances (projected from presently existing T.G.I.F. dances) and tournaments (chess, checkers, bridge, pinochle, etc.).

Academic viewpoints: I feel that the teacher-rating should be continued, as well as the course evaluation. I am also very much in favor of having the instructor's names on the schedule.

Student - faculty, administration relations: continue the work of the Student-Faculty Relations Committee; continue the gripe sessions with more faculty members present; continue the Book Store gripe sessions.

- Student-students relations:
1. Put the gripe box in more locations.
 2. Increased social activities mentioned above.
 3. Student court.
 4. Once-a-month open Congress meeting in the food lounge.
 5. Increased organization and membership of the Inter-Club Council (ICC).
 6. A more thoroughly informative freshman orientation.

- Public and community relations:
1. Endorsement of the Science Fair.
 2. Cultural concerts open to the public (major monthly activity).
 3. Student Congress sponsored movies.
 4. Speakers of public interest (politicians, famous personalities, etc.).
 5. More emphasis on the arts at Purdue Calumet.

- Physical facilities in the building:
1. T.V. for upstairs lounge.
 2. Return the stereo to the student lounge.
 3. Continue the juke-box in food lounge.
 4. Hire and pay attendants for the cloakroom.

Parking facilities: this area of concern seems, in the past, to have been a waste of time as far as results are concerned, but I feel that persistence will eventually win over high rates and poor facilities.

You have read my qualifications and platform and I ask you to make an honest evaluation so that you may use your vote wisely.

Signed,
Susan Clark

CURRIE—con't from p. 3

5. WE WILL appoint a student representative to all faculty committees.
6. WE WILL make use of student opinion.
7. WE WILL make Congress not an activity, but an instrument of the students. Students are not apathetic unless given reason to be. WE WILL NOT GIVE YOU A REASON TO BE!

So much for the Party; now about me. I am a sophomore and have a graduation index of 4.37. I am a major in international relations and gained a little political experience by helping Political Affairs Club with Choice '68, which was also a screaming example of student apathy at Purdue Cal, as only 19% of the entire student body cast their votes in this mock presidential election.

As stated above, I am President of Le Cercle Francais, a sophomore senator, and a pledge in Pi Delta Phi. Within the Congress I am a member of several committees including the Student-faculty Relations Committee, the Instructor Evaluation Committee, and the Gripe Sessions committee.

I want to be corresponding secretary of Student Congress because it will give me one of the better positions from which to COMMUNICATE. It will be my job to send out a news-letter which will be sent to all regional campuses in Indiana. I will also handle all correspondence pertaining to the Congress and the student body as a whole.

I hope I have effectively convinced you that we are the people for the job. (Perhaps the fact that there are only six declared candidates in this election will illustrate to you the apathy running rampant at this school). We will settle for nothing less than a UNIFIED, INTERESTED, AND ACTIVE STUDENT BODY! The first step in this direction is to

THINK ACTIVE . . . BE
ACTIVE . . . VOTE ACTIVE

Scope Co-op Banquet
To Be Held At Condes

The Student Chapter of Professional Engineers will sponsor a Co-op Banquet in conjunction with Pullman Standard and American Oil. The banquet will be held at Condes Restaurant in Whiting this evening.

The purpose of the Banquet is to promote the Co-op Program at Purdue Cal. SCOPE is particularly interested in having a large number of freshmen engineering majors present but any engineering student interested in Co-op may attend. Representatives of many area industries and of the Purdue Co-op Program will be present. There will also be a number of Co-op students present to explain their own view of Co-op.

This Saturday following the Banquet, SCOPE is sponsoring a tour of the Argonne National Laboratory, which is involved in government research and nuclear experiments. SCOPE will leave from the front of Purdue Cal about 11:30 a.m. and return about 5:00 p.m. All students are welcome. In the past the annual Argonne tour has always been of great interest to all those who attend.

Alpha Gamma Omega Fraternity
Active in Purdue Cal Activities

During the past few weeks Alpha Gamma Omega, a newly formed local fraternity, has been actively engaged in bringing the benefits of fraternal life to Purdue Calumet. Being primarily concerned with scholarship, brotherhood, and the promotion of campus unity, Alpha Gamma Omega has sponsored many highly successful social and charitable functions.

On Wednesday, April 3, Alpha Gamma Omega, in conjunction with Pi Delta Phi sorority, held a slave auction in the food lounge. Thirteen female slaves were sold to the highest bidders by auctioneer Wayne D'Mura. The proceeds of the sale were given to Pi Delta Phi to finance future social events.

Since fraternity goals are also concerned with the community, Alpha Gamma Omega sponsored a clothing drive which began on April 13 and ran through April 25. Due to the participation of the brothers and independents, this drive was very successful, gathering 15 boxes of clothing which was donated to St. Joseph's in Hammond for distribution.

Alpha Gamma Omega and Pi Delta Phi organized a beach party

at a beach in Miller on Sunday, April 7. Thirty members from the fraternity and sorority engaged in fun and frolic. As one fraternity member was quoted as saying, "sockus-farbis-freebus-rackus." Spirits were somewhat dampened by blowing sand finding its way into the refreshments, but by the end of the night no one really cared. Needless to say, a "good time" was had by all.

In order to promote school unity, Alpha Gamma Omega has started inter-group initiation. This semester was started by letting Pi Delta Phi initiate us, and then we initiated them. Our next step is to initiate the next new group in the school. This group will initiate the next new group, and so on. We hope that this will start a tradition at Purdue Cal.

In a campaign, headed by Jesse Bolinger, to help out the **Boilermaker**, Alpha Gamma Omega solicited local businesses and consequently obtained \$120 worth of ads for the newspaper. The fraternity is still engaged in this venture and plans to double this figure in the near future.

Thursday, May 9, Mr. Joseph

Weakly, the National Expansion Director for Phi Kappa Theta, met with the members from the fraternity and discussed the possibility of becoming a national fraternity affiliated with Phi Kappa Theta. Hopes are high that the petition to National will be accepted.

Activities for the fall semester include a road rally, dance, and another slave sale.

The fraternity will have a Formal Rush Period during the fall semester to bring new members into the fraternity.

Alpha Gamma Omega would like to know the opinion of the other clubs on the possibility of inter-club activities. Some ideas in this area are inter-club sports, such as football, baseball and basketball. Other ideas are having a weekend similar to the Little 500 and also a series of concerts at the Hammond Civic Center co-sponsored by the various clubs at Purdue Cal. For further information about these events contact Joe Shimko.

Finally, we would like to thank the students of Purdue for their participation in our activities which made them a success.

Referendum on Election Ballot:

1. Student Rights and Freedoms (See page 4)
2. Lowering of PARKING FEES to a flat \$10 rate per semester.

Student Bill of Rights

Preamble

At an institution of higher learning, a pursuit of knowledge and attainment of mature attitudes will be greatly facilitated by freedom of expression and decision making as enumerated in the following Bill of Rights. In exercise these rights, however, students must bear the responsibility to act in accordance with university, local, state and national laws. No right specified by this bill is meant to be construed as conflicting with these laws, or as enabling students to infringe upon the individual rights of another member of the academic community. We, the students, faculty and administration hereby endorse the Purdue Honor Code and the following Bill of Rights, expecting in all instances that the students will follow these documents with maturity and a level of responsibility which enables the University to retain its academic excellence.

Articles

1. The student has the right to accurate and plainly-stated information which enables him to clearly understand:
 - a. The general qualifications for establishing and maintaining acceptable academic standing.
 - b. The graduation requirements for his particular curriculum and major.
 - c. The procedural course requirements set by the individual instructors for their course.
2. The student has the right to protection against disclosure of information which is not a matter of public record. Such information, including personal values, beliefs, memberships, or political associations, shall be considered privileged and confidential.
3. Information concerning the student contained in academic, medical, counseling, and disciplinary records shall not be disseminated without a student's expressed consent. Non-current disciplinary records shall be periodically destroyed.
4. Students have the freedom to take reasoned exception to any data or any viewpoint expressed by an instructor. However, in exercising this freedom, students should not interfere with the academic process of the class.
5. Students have the right to be evaluated accurately and fairly on their academic performance, and not on their opinions *per se*, controversial or otherwise, that may be expressed in or outside of class.
6. Students have the right to discuss their academic performance with their instructors. Students who feel they have been evaluated unfairly by the instructor have the right to an appeals procedure which shall be clearly made known to them.
7. The student has right to freedom of inquiry, and to publish, discuss, and exchange findings and recommendations. Unless it has been granted, the student shall not imply University endorsement of these activities.
8. The student has the right to both establish and issue student-directed publications and to distribute literature, free of any student government, faculty and/or administration censorship or pressure aimed at controlling editorial policy or staff appointments or removal. In exercising this right, students are expected to distribute only literature and publications which subscribe to canons of responsible journalism.
9. The University shall discontinue recognition of or refuse to recognize any organization that discriminates on the basis of race, creed, sex, or national origin unless this discrimination is clearly demonstrated to be instrumental to the promotion of the group's goals.
10. Students in University-operated housing (through their residential governmental bodies) shall share at least equally with the staff the responsibility to determine social rules and codes of conduct. The student organization in such housing shall have sole responsibility for the determination of dress standards. In off-campus housing students have the right to determine residential dress standards, social rules, and codes of conduct. For the purpose of this article any housing unit, or units, occupied solely by graduate and/or married students shall be defined as off-campus housing, whether or not said housing unit, or units, is owned by Purdue University. Any housing unit not owned and operated by Purdue University shall be defined as off-campus.
11. Students have the right to freedom from illegal search and seizure. Except in circumstances which authorized personnel consider to constitute an emergency, no student resident shall be entered against the will of the occupant without prior written notice and justification, unless a legal search warrant has been issued. Subject to the above qualifications, no items may be seized without a legal seizure warrant. This article is not meant to deny the University the right to conduct routine housing and maintenance functions at reasonable hours.
12. Any group of students may become a Purdue Student Organization by registration with the University, provided the goals and purposes are not inconsistent with civil law or do not directly impede the educational process. A procedure for appeal of a University decision to discontinue or refuse registration of a group shall be established and made known to the group.
13. The student group, upon registration, commits itself solely to conformity with University regulations. Registration shall not imply endorsement of organizational goals, and activities, but shall guarantee the use of the University facilities to the group.
14. Every student organization has the right to present speakers of its choice on the University campus. Any group of students may petition the Office of the Dean of Men and/or Dean of Women for permission to present a speaker on the campus. Said petition shall state the goals and purposes of the presentation and permission shall be granted unless the goals and purposes are inconsistent with civil law. If any presentation is to be open to the general public, it shall be made known at the time of registration.
15. Freedom of assembly shall be guaranteed to all provided such assemblies do not obstruct the educational process. The University shall establish, and make known to all students, uniform and consistent procedures governing these assemblies.
16. Every student has the right to substantive and procedural due process in any formal disciplinary hearing. This shall include the right to bring counsel, the right to confront and question his accusers, the right to bring witnesses in his behalf, the right to know the charges made against him, and other rights of a person accused of a violation under civil law.
17. Students who violate civil law may incur penalties prescribed by civil authorities, but University authority shall not be used to merely duplicate the function of civil law. Disciplinary action shall be taken only when efforts to counsel, guide, or admonish the student have been exhausted.
18. It is the right of every student to freely exercise his full rights as a citizen. He may participate in off-campus activities singly or with any group, for any legal purpose, provided he does not officially represent the University.
19. The enumeration in this bill of certain rights shall not be construed to deny or disparage others retained by the student. Students have the right to an appeals procedure concerning any infringement of points enumerated in this bill.
20. Ratification of and any amendment to this Bill of Rights shall be made by the action of both University and Student Senates, and be subject to the approval of the Board of Trustees.
21. This bill shall be presented to the Student Body consisting of both graduate and undergraduate students, by the Student Body President and be considered in effect only if passed by a majority of votes cast in the referendum. Said referendum shall be held prior to May 1, 1969.

April 1, 1968
